Race Entries "Stock Only"

MIO—Entries in the fifth annual Michigan Canoe Championship race this year will definitely be restricted to "stock model canoes without hull alterations," as set up in the rules of the race, members of the committee voted at a meeting held at Mio last week.

This action came as the result of several racing canoes of unique design, all of them custom-made jobs, that won most of the prizes in the recent Thunder Bay race at Alpena.

Ray Snider, of Grayling, general chairman, presided over the meeting, which was attended by representatives from Grayling Mio, Glennie and Oscoda.

Glennie Businessmen, have entered the sponsoring group for the Fifth annual race, which will be run September 15-16, from Grayling through Mio to Oscoda. Other sponsors are the Grayling Chamber of Commerce, the Mio Sportsmen's Club, the Oscoda-AuSable Chamber of Commerce.

418 Boys And Girls Attend Camp AuSable

"Daddy's home now with a cast on his leg, but mama's still in the hospital. She's almost conscious, though," explained a 11-year-old girl camper from Ionia with a slightly worried look in her eyes, last Saturday evening at the close of vesper services. "You see, they were in an auto accident five or six weeks ago." She paused, then added. "I know they will soon be well, for every morning our unit has been praying for them."

She smiled courageously and hurried off to catch up with the girls of her unit on their way to add a part to the evening's amateur program.

This is but an insight into the life of one of the 418 boys and girls who have been at Camp AuSable in the last four weeks.

Each camper has not only a full program of work, study, and play but also mediation and prayer. Every morning, each unit gathers in a circle with its counselor and memorizes a Bible verse and prays. Here, if they do not already know, they learn to pray.

Thus when they return home they are better able to meet the problems of life.

Going-home day is mixed with feeling of joy and sadness—happy to go home to parents, brothers and sisters, and friends, but sad to leave new friends, counselors, leaders and Camp AuSable.

"Hope to see you next year," are their parting words as they wave good bye and head back for home.

Guide To Fishing

By
JACK SCHWEIGERT

This time of Trout season the real fisherman gets the full enjoyment. Not too many on the stream, a slow approach, a well placed fly, and a light leader with the proper line, etc. Most of the "easy-come" fishermen have given up by this time and are out lake fishing.

Truly these dyed-in-the-wool trout fishermen are not out to see how many they can get, but they just fish for fun, yet they take the larger per cent of the fish during this season, not because they fish more, but because they use lighter tackle and show good sportsmanship.

While we are on the subject of sportsmanship, we have a good Conservation Pledge that made a hit in a lot of magazines and posters. Why not someone write a Sportsmanship Pledge something like this.

"I give my pledge as a Sportsman to always be considerate of my fellow man, to give all Fish and Game an equal chance of survival with gun and rod, and faithfully defend the Freedoms of my Country, not only to man, but to all wildlife to go and come as they please."

Hoppers are leading the list of dry flies with the peacock herl body flies in second place. This week the day fishing should be the best, the high point around mid-day. The evenings will only be fair unless the weather is very ideal.

Any question you may have concerning fishing will be answered, addressed "Guide to Fishing," Box 41, Roscommon, Mich. Or for your week ends fishing conditions tune in on WSGW at 6:15 every Friday 790 on your dial.

Beaver Creek 4 Votes Annex

School electors of Beaver Creek School District Number 4 voted 38 to 2 last Thursday night to annex their school district to the Grayling School District, according to Willard Cornell, County Superintendent of Schools.

At a recent meeting of the Grayling School District Board of Education an enabling motion was passed which allow the Beaver Creek District to vote on the annexation. The vote was a high representation of the qualified school electors of the district and the majority was high for the annexation.

For the past two years, children of the District have been transported clear to Frederic for school when the Beaver Creek District Number 4 found it impossible to operate their own school. The Grayling District was unable to take care of the students due to crowded conditions. With the expected opening of the St. Mary's Parish School this fall, the Grayling Board felt that there would be room for the Beaver Creek students now. According to state law, the annexation will not take effect until September. 1952. Attempts will be made to set aside the law in this case and make the annexation effective immediately. If not the Beaver Creek students will be taken into the Grayling District during this coming school year as tuition students.

Local Librarian Attends Work Shop

The local librarian, Mrs. Funck has returned from the Conservation Training Camp at Higgins Lake, where she attended the Library Work Shop for five days. This year's group is the largest that has attended a Library Work Shop. There were 82 students, a total of 94 including the staff from the State Library and other large libraries. This is the third work shop of the year. In spite of being rather crowded, and two very hot days, it was a very helpful session and there were a number of things discussed that we feel will help us to improve our service,

"The theme this year was an emphasis on "How the Public Library Can Serve Youth, Understanding the Teen-ager, and discussions on Books for Youth, (Last year it was childrens books, and next year we consider adult books), There were also lessons or discussions; Judging reference books, Determining the Library's financial needs, Budgeting and Annual reports,

While the circulation is not so good at this time of the year, there are students who have required reading to catch up on and several taking extension work who use the library,

Those in the Woman's Club and others who have shown an interest in a better library, will like to know that we will get the Penal fines again this year, but have not been allowed additional support from tax money. The penal fines will give us enough money so that we can order some new books. We will soon get our orders in and by the time school starts you will find some of the new books available at the library,

If we are to meet the library standards as to hours, book collection and salary, we are still in need of more local support from the county," Mrs. Funck said.

1951 Encampments To Cost One Million

Training costs for some 8,000 Michigan Army National Guardsmen may easily exceed a million dollars for the two weeks of 1951 field training.

A total of $978,276.34 is the cost estimated for training at Camp Grayling by the USP&DO; based on an attendance of approximately 7,915 officers and men. This does not include costs of Ack-Ack personnel, who will train at Camp Perry, Ohio.

The largest and most important expenditure at camp, of course, is pay. This year $711,648.75 will be paid to troops. And second in amount is rations. Chow will cost $131,333.17 for officers and men.

Transportation of personnel is a small figure compared to camp pay and rations but is next in amount at $61,468.11. Fuels at $43,758 and transportation of equipment at $18,792 follow, with a miscellaneous figure of $5,982.05 and medical costs of $4,500. Communications and photo publicity combined will run $744.90.

Add these figures to the training cost of nearly 500 officers and men making up the AAA battalions and a million dollar cost for field training of all Michigan National Guardsmen is a minimum estimate.

Preparation of Camp Grayling's encampment site for the 1951 field training season is about complete, according to Maj. Versel Case, Jr., assistant to the Quartermaster General.

Extension of Beaver Creek Road to a junction with Upper Lake Road has been finished. The gravel surfaced extension will eliminate the former jog which drivers found necessary to make when traveling into or from camp via the Beaver Creek Road.

Installation of new oil water heater in all unit bath houses has been completed. New duck boards have also been constructed for all enlisted men's bathhouses.

Mrs. E. L. Sparkes was hostess at a luncheon Monday at the Hidden Valley Ski Club.

FUNDS FOR RED CROSS BADLY NEEDED

Following is part of a telegram received by Mrs. C. G Clippert, Crawford County Red Cross chairman.

"Up to date survey of disaster area (midwestern flood area) indicates flood is most devastating in history of area affected. The complete destruction of homes is far greater than earlier reports indicated. It is necessary to secure a substantial oversubscription of the five million dollar disaster appeal announced earlier so that Red Cross may meet its responsibilities. To reach minimum objective each chapter must assume a proportionate share of the appeal. Your chapter should strive to raise a fund equal to twenty per cent of the national needs assigned your chapter for the 1951 fund campaign.

The quota this year was $600 for Crawford County, hence $120 should be raised for this disaster fund.

Please mail contributions to Mrs. Leo Jorgenson, 407 Maple or Mrs. C. G. Clippert, Lake Margrethe.

The local chapter is striving to get some of the well known Red Cross containers which will be placed in some of the business places for the convenience of those wishing to contribute to this disaster fund.

Michigan Guardsmen To Mobilize For Field Training

Saturday, August 11, is Field Training M-Day for the Michigan National Guard as nearly 7,500 citizen-soldiers from 50 communities mobilize at Camp Grayling and Camp Perry, Ohio, for two weeks of intensive training in the field.

Seven thousand troops of the 46th Infantry Division will rendezvous at Michigan's famed Hanson State Military Reservation at Grayling for the fifth annual field training encampment since the reorganization of the Michigan National Guard after its historic service in World War II.

Another 500 Guardsmen of Detroit's 146th Antiaircraft Artillery Automatic Weapons Battalion, the 222nd Radio Controlled Airplane Target Detachment, and the 300th Antiaircraft Artillery Gun Battalion of the Upper Peninsula and Manistee will concentrate at Camp Perry, Ohio, where they will train their weapons on targets over Lake Erie.

Training mission of Michigan Guardsmen as set forth by their commander, Major Ralph A. Loveland, is "to bring their units to a high state of training capable of functioning effectively at existing strength without further training when employed in emergencies by State and Federal authorities, and to provide a trained force for rapid mobilization and expansion in time of war as a component of the Army of the United States."

To help carry out this mission every Guardsman will be given an opportunity to qualify with his individual weapon on Camp Grayling's extensive system of firing ranges. Big guns of the 46th Division field artillery battalions and the antiaircraft battalions will thunder over Michigan's northland and Lake Erie as their crews put into practice lessions learned during the past armory training year.

Highlight of the 15 days' training at Camp Grayling will be the events of Governor's Day, Saturday, August 18. Governor Williams will join Guard leaders and others in reviewing the massed strength of the 46th Division. Nearly 7,000 troops will parade past the reviewing stand with their many weapons of war.

Most units of the Michigan National Guard will still accept enlistments up to departure for camp. Qualified men between the ages of 17 and 35 may enlist in the unit of their choice and attend field training at Camp Grayling or Camp Perry. Draft-age men may enlist if they have not yet received their notice for preinduction physical examination. They will then be deferred from induction into the Armed Forces as long as they serve satisfactorily in the Guard.

Michigan Guardsmen will receive full pay allowances from the Federal Government for the two weeks of training. In addition, every enlisted man will receive $2 per day from the State of Michigan.

Protection for you alone is not enough . . .

That's why FULL FAMILY MEMBERSHIP is an important and valuable feature of Blue Cross - Blue Shield!

CHANCES ARE *one in four* that you will be faced with hospital and medical bills this year for yourself or a member of your family. And the chances are even greater that, if you are among the *one in four,* the bill will be for a member of your family. BLUE CROSS - BLUE SHIELD records show that family dependents use two to four times as much medical treatment requiring hospital care as the employed subscriber himself.

That's why the hospitals and doctors who run BLUE CROSS AND BLUE SHIELD have provided a program of Full Family protection that offers the subscriber the opportunity to enroll his wife and children for exactly the same comprehensive benefits as he himself receives.

In addition, BLUE CROSS AND BLUE SHIELD provide many other family protection features. For example: under the *Full Family Contract,* the newborn child is covered from birth. In addition, *all* eligible children under 19 years of age, no matter how many in the family, may be enrolled and receive the same full benefits without additional cost to the subscriber.

Yes, the family is important to BLUE CROSS - BLUE SHIELD and BLUE CROSS - BLUE SHIELD are important to your family. Protection for you alone is not enough.

These comprehensive benefits give you and your family protection that's priceless

Blue Cross Comprehensive Group Hospital Plan provides up to 120 days care in ward or semi-private room, according to the service for which you enroll, in any of the 191 participating hospitals in Michigan. There's *no limit* on the certificate benefits covered—no matter how high the total bill!

Blue Shield Medical-Surgical Plan pays generous amounts for specific surgical procedures—gives you the peace of mind that comes with knowing substantial payments will be made towards your doctor's visits to the hospital in non-surgical cases.

And remember—a BLUE CROSS - BLUE SHIELD membership card admits you to a participating hospital without red tape or embarrassing questions. Afterward there are no claims to file, because BLUE CROSS AND BLUE SHIELD pay hospitals and doctors directly.

Talk to your employer about making Blue Cross-Blue Shield available where you work, through the Group Enrollment Plan, without physical examination or health statement.

"Oil Does Not Produce Itself"

"If ever there was a case of biting off a nose to spite the face, the seizure of the vast holdings of the Anglo-Iranian Oil Company is the perfect example," said the New York Times editorially. "In so far as the future is ever predictable, one can say with certainty that the Iranians have made a tragic mistake and one that they themselves will pay for."

The Times' point is that government is just incapable of running an oil industry which it calls "far and away the most expensive and complicated of all commercial undertakings today." It describes the sad experience of Mexico, which expropriated all oil resources in 1938—and has not turned up a single new rich field in 13 years, though she is potentially one of the world's greatest oil producers. In 1950, Mexican production was 72,000,000 barrels—whereas, before she socialized oil a peak production of 193,000,000 barrels was reached in 1921.

Does anyone think for a moment that the American oil industry would have attained its present state of development had it been owned or operated by politicians instead of technicians, managers, engineers and other experts? What makes for the greater progress — monopolies or free competition? Who are the best workers, all the way from junior clerks to top executives—free men, or the stooges and slave labor of totalitarian governments?

These questions answer themselves. Whatever one may think of the difference between the Iranian and the Anglo-Iranian Oil Company, Iran has taken an inexcusable and suicidal step. To quote the Times once more, "Oil does not produce itself." It takes the finest type of enterprise to produce it—as the American oil industry has demonstrated in operations both at home and abroad.

It also proposed the governor be given back the power to fire the state police commissioner, now held by the supreme court.

He called for closer liaison between state and local officials, a state-wide educational program for local workers and a strong department of elections at the state level.

HIGH-TEST BLUE SUNOCO

MORE MILES PER DOLLAR

Automotive Engineers know that the weight of a gallon of gasoline determines energy content ... mileage. Official surveys show that the weight per gallon of high-test Blue Sunoco matches the average of all leading premium-priced gasolines. In short, high-test Blue Sunoco gives you *equal energy, equal mileage at lower cost* ... gives you more miles per dollar.

2¢ SAVING PER GALLON

High-test Blue Sunoco sells at regular gas price, which is usually 2 cents a gallon below premium-priced gasolines. In spite of its low price, in many ways Blue Sunoco gives you more value because of its outstanding balance of such qualities as anti-rust, quick-starting, anti-stalling, clean burning, long mileage and high-test action.

Consumers Links Mio Dam, Gaylord

The first major link-up between Consumers Power Company's state-wide electric network and the electric system formerly operated by the Michigan Public Service Company was announced today by B. D. Hilty, Division Manager of Consumers' Northwest Division, with headquarters at Traverse City.

Mr. Hilty said the completion of important transmission line and substation projects at Mio Dam on the AuSable River and at Gaylord, with the energizing of the Gaylord Substation, will result in improved service and an increased power supply for the entire Division.

Gaylord is connected to new substation facilities at Mio Dam by a new, 40 mile long, 140,000 volt transmission line.

Mr. Hilty also announced that the Company is ahead of schedule in its project to link Cheboygan and Gaylord directly with a new 140,000 volt transmission line.

The new line Mr. Hilty said, is to extend 20 miles to a new Consumers substation at Rondo, north of Wolverine. The Rondo Substation will be energized sometime in August, he said. By next summer, the line will reach the Cheboygan area near Mullet Lake

The new Gaylord substation reduces voltage from Mio Dam to 33,000 volts for transmission over older lines throughout the division north to Cheboygan. Plans for replacing the old 33,000 volt lines with 44,000 volt facilities have already been outlined, Mr. Hilty said, and some replacements have been completed.

The Gaylord Substation, with an installed capacity of 15,000 kilowatts in the transformer, serves as the hub of Consumers' rapidly growing Northwest Michigan electric power transmission network. Service from this substation to Boyne City greatly improves the power supply now furnished in the Boyne area by small generating facilities. These are two small hydro plants near Boyne Falls, which will continue in full use, and a diesel plant at Boyne City, which will be maintained by Consumers as a stand-by property, Mr. Hilty said.

He added that Consumers Power Company has already invested more than $1,500,000 in improving service in the area of his Division, and that the total expended this year alone will exceed $3,000,000.

Red Cross Makes Appeal

Speaking at the conclusion of a special disaster relief half-hour television program over the NBC-TV network (8:30-9 pm EDT) tonight, E. Roland Harriman, President of the American Red Cross, urged all Americans to respond generously to the Red Cross emergency appeal for $5,000,000 to aid flood sufferers in Kansas, Missouri, Oklahoma, and Illinois. The special fund campaign was requested by President Truman after he had flown over the flooded areas.

"The job of rehabilitating families overwhelmed by this unprecedented disaster is one which will continue a long time after the water has subsided," Mr. Harriman said. He pointed out that re establishing people in their homes and on farms will take far more money than the Red Cross can provide, particularly in view of the fact that the Red Cross annual fund drive last March fell short of its goal.

Mr. Harriman said that the government can and should assist in restoring public facilities but that in the case of people, "nothing can take the place of neighbor helping neighbor." He said that the rehabilitation of families in the present disaster has, as usual, been entrusted to the Red Cross.

"The Red Cross makes it possible for all people to work together in a common cause," he said, and urged a prompt and generous response that will make it possible for the Red Cross to carry out its merciful mission.

Disaster fund contributions from Crawford County should be forwarded to Mrs. Leo Jorgenson at 407 Maple Street in Grayling. The donations may either be mailed or taken to her Mrs. Jorgenson is the secretary of the Crawford County Chapter, American Red Cross.

LEGAL NOTICES

Notice of Hearing on Petition to Vacate and Abandon a Part of Evans Street and Alley in Block 2 of McRae's Addition to Frederic, Frederic Township, Crawford County, Michigan.

Notice is hereby given that a petition has been filed with the Board of County Road Commissioners of Crawford County, Michigan, for the vacation and absolute abandonment of all that part of Evans Street, commencing at Manistee Street and continuing East to Cheboygan Street. Also the 20 foot alley commencing at McRae Street and continuing South to Evans Street, as platted, in Block 2, of McRae's Addition to the Village of Frederic.

For the reasons that said part of Evans Street and Alley has never been opend or worked, upon, as a public street, that the opening thereof would serve no useful purpose, and would require the expenditure of public money that would not be justified, and as the majority of lots are now owned by the Frederic Consolidated School and are used as a school playground, and that public use of said street and alley would create a hazzard for school children using said playground.

Notice is hereby given that a hearing will be held on said petition before this Board on the 6th day of August, 1951, at 11:00 o'clock A. M., at the office in Grayling of said Board of County Road Commissioners.

Dated July 9, 1951.
